prevent drought-related damage to agriculture.

Choose the correct statements with the codes:

(a) Only 1
(b) Only 2
(c) Both are correct
(d) Both are wrong

34. Identify the following statements regarding organic agriculture:
    1. Organic agriculture has fed India for centuries and it is again a growing sector in India.
    2. India has seen a huge growth in cooperative societies, mainly in the farming sector, since 1947 when the country gained independence from Britain.

    Choose the wrong statement in the above:

    (a) Only 1 wrong
    (b) Only 2 wrong
    (c) Both are wrong
    (d) Both are correct

35. Identify the following statements whether right or wrong:
    1. India has very poor rural roads affecting timely supply of inputs and timely transfer of outputs from Indian farms. Irrigation systems are inadequate, leading to crop failures in some parts of the country because of lack of water.
    2. Although India has attained self-sufficiency in food staples, the productivity of its farms is below that of Brazil, the United States, France and other nations.

    Choose the correct statement/statements through the codes:

    (a) Only 1 correct
    (b) Only 2 correct
    (c) Both are correct
    (d) Both are wrong

36. Consider the following statements:
    1. Based on 2012 data, India is home to the fourth largest agricultural sector in the world. India has an estimated 180 million hectares of farmland with 140 million of which are planted and continuously cultivated.
    2. India's agricultural sector today still faces issues of efficiency due to lack of mechanisation with poorer conditions of farmers,
