Most of these are located in West Bengal, mainly along the Factors responsible for their location in the Hugli basin are: proximity of the jute producing areas, inexpensive water transport, supported by a good network of railways, roadways and waterways to facilitate movement of raw material to the mills, abundant water for processing raw jute, cheap labour from West Bengal and adjoining states of Bihar, Odisha and Uttar Pradesh.

Statement II: CORRECT—Kolkata as a large urban centre provides banking, insurance and port facilities for export of jute goods. In 2010-11, the jute industry was supporting 3.7 lakh workers directly and another 40 lakhs small and marginal farmers who were engaged in cultivation of jute and mesta. Many more people were associated indirectly. Challenges faced by the industry include stiff competition in the international market from synthetic substitutes and from other competitors like Bangladesh, Brazil, Philippines, Egypt and Thailand.

14. Statement I: CORRECT—The new Industrial Policy was implemented in 1991.
    - The new industrial policy has three main dimensions - liberalisation, privatisation, and globalisation.
    - Within this new industrial policy, measures initiated are - abolition of industrial licensing; free entry to foreign technology; foreign investment policy; access to capital market; open trade; abolition of phased manufacturing program; and liberalised industrial location program.
    - Globalisation means integrating the economy of the country with the world economy.

    Statement II: CORRECT—India has eight major industrial regions namely (as shown on the map given below)-
    - Mumbai-Pune Region,
    - Hugli Region,
    - Bengaluru-Tamil Nadu Region,
    - Gujarat Region,
    - Chhota Nagpur Region,
    - Vishakhapatnam-Guntur Region,
    - Gurgaon-Delhi-Meerut Region, and
    - Kollam-Thiruvananthapuram Region.
