15. Statement I: CORRECT—Industrial systems are made up of input, processes, and output. The input of raw materials, labour, land, power, and other infrastructure. The process is the plan the manufacturer has of how to turn raw materials into finished products of value. And finally, the output is the end of the product from which the income earned it.

    Statement II: CORRECT—Industrial clusters occur when many industries are located close to each other and share the benefits of their closeness. Major industrial clusters in India are:

    - Mumbai-Pune cluster
    - Bangalore-Tamil Nadu region
    - Hugli region
    - Ahmedabad-Baroda region
    - Chottanagpur industrial belt
    - Vishakhapatnam-Guntur belt
    - Gurgaon-Delhi-Meerut region
    - Kollam-Thiruvananthapuram industrial cluster

16. Statement I: CORRECT—As we learned how industries were classified according to raw material, size, and ownership. Here we will learn the distribution of some major industries, which are iron and steel industry and textile industry are the oldest industries that have had their role in Indian industrialisation. Information technology is an emerging industry.

    Statement II: CORRECT—Iron and steel industries have their firm hold in countries like Germany, USA, China, Japan, and Russia. While textile industries are flourishing in India, Hong Kong, and South Korea. The new emerging information technology has their concentration in Silicon Valley of California and Banglore of India.

17. Statement I: CORRECT—Textile is a fabric that is woven from fibres. It takes raw material like cotton or wool and the process called spinning turns it into yarn that is later used to create the fabric. Fibres can be natural or are man-made. Natural fibres are - cotton, jute, linen, wool, and silk. Man-made fibres are - nylon, rayon, and polyester.

    The man has been wearing and using fabric since ancient times. The textile industry is one of the oldest industry in the world. And until the industrial revolution, the textile industry used
