wheels and looms to weave fibre. During the revolution, power looms were introduced first in Britain.

Statement II: CORRECT—After that, textile industry expanded in Mumbai because of its warm, moist climate, facility of port for importing machinery and exporting the output and above all the availability of cheap labour. Some of the well known and highly demanded fibres are, Muslins from Dhaka Chintzes from Masulipatnam and Calicos of Calicut, Gold wrought cotton from Surat, Burhanpur, and Vadodara.

18. Statement I: CORRECT—Indian Industrial sector, hence, consists of manufacturing, mining, electricity, and construction. After the economic crisis in 2008, it showed considerable recovery and steady growth for three years but then lost the track after that. This was due to constraints on both supply-side and demand-side. Therefore, Industrial performance in 2013-14 has maintained its lackluster growth for the second successive year.
    - The latest GDP estimates depict that industry grew by 0.4% in 2013-14 after being 1% in the year 2012- 13.The projected 12th Five Year Plan target is 10% growth rate for the manufacturing sector and 5.7% for the mining sector in the remaining three years.
    - A sector-wise analysis of the industrial performance depicts that the main reason for low performance is- contraction in mining activities and reduced manufacturing output.

    Statement II: CORRECT—The industrial sector showed a growth of 0.4 percent in 2013-14. This poor performance is attributed to the contraction in mining and slowdown in manufacturing.
    - Manufacturing and mining-sector GDP has declined due to reduction in investment especially by the private corporate sector during last three years.
    - Natural gas production has declined primarily due to declining level of production from the KG-6 basin. But electricity generation has increased in comparison to the previous year by 2.1%, due to significant capacity addition in the recent years.
    - The steel and cement sectors show capacity underutilisation due to slowdown in construction sector.
