Difficulty Level: Easy

1. The industrial sector performance during 2018-19 has improved as compared to 2017-18. The growth of industry real Gross Value Added (GVA) was higher at 6.9% in 2018-19 as compared to 5.9% in 2017-18.
   - Index of Industrial Production (IIP): The industrial growth rate in terms of Index of Industrial Production (IIP) during 2018-19 stood at 3.6% as compared to 4.4% growth rate in 2017-18.

   The moderation in 2018-19 has been mainly due to subdued manufacturing activities due to slower credit flow to medium and small industries, reduced lending by NBFCs owing to liquidity crunch, tapering of domestic demand for key sectors such as automotive sector, pharmaceuticals, and machinery and equipment, volatility in international crude oil prices etc.
2. Leather and Footwear:
   - India is the second largest producer of footwear, second largest exporter of leather garments and fifth largest exporter of leather goods.
   - Challenges: The global demand for footwear is moving towards non-leather footwear, while Indian tax policies favour leather footwear production.

   India faces high tariffs in partner country markets for leather goods and non-leather footwear.
   - A special package of ' 2600 crore under the scheme Indian Footwear and Accessories Development Programme is being implemented (2017-20) which has the potential to generate 3.24 lakh new jobs in three years.
3. Ministry of Road Transport and Highways (MORTH) declared 2018-19 as the ‘Year of Construction’. The major constraints faced by the sector: Lack of availability of funds for large projects as well as for maintenance, Lengthy processes in acquisition of land and payment of compensation to the beneficiaries, environmental concerns, time and cost overruns due to implementation and procedural delays Initiatives.

   Process streamlining indicating approval authorities with enhanced delegation of approval limits, putting in place
