(a) 1, 2 and 3 are correct
(b) 1, 2 and 4 are correct
(c) 1, 3 and 4 are correct
(d) 1, 2, 3 and 4 are correct

16. Which one of the following statements is not correct?
    (a) The open tropical oceans have abundant sunlight and CO2.
    (b) The open tropical oceans are generally rich in surface nutrients.
    (c) The tropical oceans have strong thermoclines.
    (d) The tropical oceans away from land are oceanic deserts.
17. Consider the following statements about climate change:
    1. Because of climate change, the quality of fruits, vegetables, tea and coffee will be adversely affected.
    2. Demand for irrigation will increase because of extreme events.
    3. There will be increase in pest and diseases to crops.

    Which of the above statement/statements is/are correct?
    (a) 1 and 2 only
    (b) 1, 2 and 3
    (c) 1 only
    (d) 1 and 3 only
18. Which one of the following statements is not correct ?
    (a) Diego Garcia lies in the North Indian Ocean.
    (b) Seychelles lies in the South Indian Ocean.
    (c) Mauritius lies to the east of Madagascar.
    (d) Socotra Island lies in the North India Ocean.
19. Consider the following statements and select the correct answer using the code that follows:
    1. Once a tsunami is generated, its steepness is extremely low.
    2. This lack of steepness, combined with the wave's very long period (5 to 20 minutes), enables it to pass unnoticed beneath ships at high sea.
    3. As the tsunami approaches the shore, the period of the wave remains constant, velocity drops and wave height greatly increases.

    Codes:
    (a) 1 and 2 are correct
    (b) 1 and 3 are correct
