(c) They originate around 8o north and south of equator.
(d) They do not occur in the South Atlantic Ocean.

15. Consider the following statements and select the correct answer using the code given below:
    1. The temperature at which a given mass of air becomes saturated is termed the dew-point temperature.
    2. Air is saturated when the dew-point temperature and air temperature are the same.

    Codes:

    (a) Only 1 is correct
    (b) Only 2 is correct
    (c) Both 1 and 2 are correct
    (d) Neither 1 nor 2 is correct
16. Which of the following statement/statements is/are correct about the affect of climate change:
    1. Climate change will lead to extreme weather events.
    2. The extreme weather events will affect agricultural productivity.
    3. Cold waves and frost will decrease.

    (a) Only 1
    (b) 1 and 2 only
    (c) 1, 2 and 3
    (d) 2 and 3 only
17. The following statements are related to climate change:
    1. Because of climate change organic content in the soil will decrease.
    2. Increase in soil temperature will increase soil erosion.
    3. Extreme events will lead to salinization.
    4. Rise in sea level will lead to salt water ingression.

    Which of the above statement/statements/is/are correct?

    (a) 1,2 and 3 are correct
    (b) 2, 3 and 4 are correct
    (c) 1, 3 and 4 are correct
    (d) 1, 2, 3 and 4 are correct
18. The continental rise lies between:
    (a) The continent and the continental shelf.
    (b) The continental shelf and the continental slope.
    (c) The continental slope and the deep ocean.
