1. A frontal inversion occurs when a cold air mass undercuts a warm air mass.
2. This types of inversion is stable and consistent even though weather changes.

Select the correct option:

(a) 1 only
(b) 2 only
(c) Both 1 and 2
(d) None of the above

14. Jet streams are
    1. Bounded by low speed winds
    2. Jet streams are a part of upper level westerlies.

    Select the correct option:

    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) None of the above
15. Which jet streams influences Indian monsoon Patterns?
    1. Sub-tropical jet stream
    2. Polar jet stream
    3. Somali jet stream
    4. Tropical Easterly jet stream Select the correct option:

    (a) 1, 2, 4
    (b) 2, 3, 4
    (c) 1, 3, 4
    (d) 1, 2, 3
16. What are the ideal conditions for the formation of air masses?
    1. Source region should be extensive with gentle, divergent air circulation
    2. Areas with high pressure but greater pressure difference or pressure gradient.

    Select the correct option:

    (a) 1 only
    (b) 2 only
    (c) Both 1 and 2
    (d) None of the above
17. Read the following statements:
