zone with lack of wind. This option is also not related with eastward flow of the equatorial counter-current.

6. In this question, compare Pilgrim places with their location. Statement 1 shows that Srisailam is a town having shrine of Lord Mallikarjuna that is located on top of Nallamala Hills, so this is correct. Statement 2 describes Omkareshwar pilgrimage which is located on Mandhata hills in Madhya Pradesh and not on Satmala Hills, so this is incorrect. This statement eliminates options (b) and (d). Statement 3 describes about pilgrimage place Pushkar that is a shrine of Lord Brahma located in Ajmer district on Arravali hills and not on Mahadeo Hills as this hill in in Madhya Pradesh, so this is not correct. This statement eliminates options (b), (c) and (d), hence only option (a) is correct.
7. In India, agriculture markets across the country are established which are regulated under APMC Acts. In a state, market area is confined and demarcated inside markets which are managed by Market Committees that are constituted by respective State Governments. So we see that option B is correct. We see that option (a) is incorrect as Essential Commodities Act is related to controlling and monitoring the production, supply and distribution of certain commodities and not related to regulating of market. Option (c) is incorrect as Agricultural Produce Act is related to commodity grade designation, penalty of selling mis-graded articles, etc. Option (d) is incorrect as Food Products Order, 1956 and Meat and Food Products Order, 1973 implement hygienic standards and further will exercise on quality control on meat food products.
8. Golan Heights is a Plateau which was situated between south Lebanon, south Syria and northern Israel that was captured from Syria and occupied by Israel in a Six-Day War taken over by Israel in 1981. The map shows the demographic location of Golan Heights is Middle east.
