

9. Vamsadhara River in Statement 1 originates from Odisha and joins Bay of Bengal, so it can not be a tributary of Godavari, hence this statement is incorrect. This will eliminate options (a) and (c). Indravati River in statement 2 is a tributary of Godavari River as it originates from Eastern Ghats in Kalahandi district and flows towards Chhattisgarh state. This river will traverse in western and southern direction before joining Godavari River, so this is correct. Pranhita River in statement 3 flows in Maharashtra and in Andhra Pradesh which joins Wainganga towards Sironcha and joins Godavari River in Maharashtra, so it is correct. Pennar river describe in statement 4 originates from Karnataka and flows towards east by draining into Bay of Bengal which is again not a tributary of Godavari, so this is incorrect and eliminates options (b) and (c). Hence the required option is (d).
