Explanations

1. Map based - Refer atlas
2. The Indian Himalayan Region (IHR) spreads on ten states (administrative regions) namely, Jammu and Kashmir, Himachal Pradesh, Uttaranchal, Sikkim, Arunachal Pradesh, Meghalaya, Nagaland, Manipur, Mizoram, Tripura, and hill regions of two states vis. Assam and West Bengal of Indian Republic.
   Western Ghats are spread over six states. Kerala, tamilnadu, karnataka, goa, Maharashtra, gujarat.
3. The Indian Ocean Dipole is an irregular oscillation of sea-surface temperatures in which the western Indian Ocean becomes alternately warmer and then colder than the eastern part of the ocean. An IOD can either aggravate or weaken the impact of El Nino on Indian monsoon. If there is a positive IOD, it can bring good rains to India despite of an El Nino year.
