

Vamsi Vikas, MD, Raghu Vamsi Machine Tools Pvt. Ltd. wins, "The Supplier Excellence Award for Faster Execution" from the top management, Honeywell in the recently held Supplier Conference.

INNOVATIVE CUTTING EDGE AEROSPACE & DEFENCE PRODUCTS THROUGH PRECISION MANUFACTURING

Industry peer, Raghu Vamsi Machine Tools Pvt. Ltd., has in the past two decades, shown remarkable growth in manufacturing precision parts and sub-assemblies for Aerospace, Defence, Space, Medical, Oil and Natural Gas.

Its aerospace portfolio, boasts of best in market companies such as Boeing, GE Aviation, Collins Aerospace, Honeywell, Safran, Eaton, Rolls Royce amongst others.

One of the few companies in India to have in-house critical manufacturing capabilities and technologies for design and development, prototyping, high precision manufacturing, composites, electronics, sheet metal fabrication, electro optics and surface treatments, has helped create critical products and Sub-Assemblies through high standards in Operations and Quality.

Owed to its quality manufacturing, joint ventures have been signed with Rave Gears, USA, for high end gears and gear box manufacturing for helicopters and aircrafts and Precision Ceramics, UK, for top notch precision ceramic products like body armor, space liners for space crafts and bulletproof jackets.

Every missile that India produces and every rocket that ISRO places in space, has at least one critical sub-system from Raghu Vamsi Machine Tools Pvt. Ltd.. The Gaganyaan Spaceflight Mission to be launched in 2024, can be added to the list.

Defence applications like Loitering Munitions (Kamikaze Drones), Unmanned Combat Autonomous Vehicles, Simulators for Soldier Training, 100% indigenous Micro Turbojet Engine to power drones and missiles, Advanced systems to create Electro Optic Sights and Seeker Assemblies are some of the works done admirably here.

A recent accolade won as Best Supplier in Execution and Quality from Honeywell and Collins Aerospace, USA, brings to the fore their strong performance at the global level. Expanding rapidly with more than 75% YOY growth for the last few years, Raghu Vamsi Machine Tools Pvt. Ltd. will triple its capacity, with the new land allotted by the Government of Telangana, in the Hardware Park adjacent to Rajiv Gandhi International Airport, Hyderabad.

An experienced advisory board, a young and dynamic Managing Director in Mr. Vamsi Vikas, proficient management team, best trade practices, strong focus on growth are some of the significant characteristics that draws national and international conglomerates to associate with them.

Vamsi Vikas, Managing Director
