ADER IN PROVIDING EMPLOYMENT

"New airports, new defence corridors, new mobile manufacturing units, infrastructure, and modern waterways are bringing unprecedented employment opportunities to Uttar Pradesh. UP has done outstanding work in education and skill development. More than 16.50 lakh youth in UP have been trained in various skills as part of the Skill Development Mission. This is generating new employment opportunities for the youth of Uttar Pradesh."

— Narendra Modi, Prime Minister

tackle unemployment, it has been decided by the state government that every year efforts will be made to provide government jobs to 1 lakh people and 12 to 15 lakh jobs in the private sector.

Uttar Pradesh proudly boasts the largest base of Micro, Small, and Medium Enterprises (MSME) in the country, comprising over 96 lakh units. Recognizing their immense potential to drive employment generation, the state government has taken proactive measures to simplify procedures, unlocking possibilities for growth. During the challenging phase of the pandemic, when more than 40 lakh workers and laborers returned to Uttar Pradesh from various states, the MSME sector stepped up and provided them with opportunities to earn a livelihood.

The state government's flagship schemes, like the One District, One Product Scheme and the Vishwakarma Shram Samman Yojana, have played a pivotal role in nurturing talent and aligning it with skill development programs. As a result, the state has witnessed a significant reduction in unemployment, a testament to the effectiveness of the government's policies. In a laudable effort to empower the youth, the state government has connected more than 2 crore individuals with self-employment opportunities across diverse sectors. Number of youths were linked with self-employment by providing loans through banks. This concerted endeavor has not only lowered the unemployment rate in Uttar Pradesh but also provided its people with abundant employment facilities.
