EdCIL (India) Limited
Pioneering the Future of Education

EdCIL (India) Limited is proud to be the only Central Public Sector Enterprise (CPSE) under the Ministry of Education, Government of India. EdCIL is the implementation arm of the Ministry and drives the core initiatives and priorities of the Ministry for the Indian education sector. With an unwavering commitment to transforming the education landscape, EdCIL has become a leading provider of project management, consultancy, advisory, and digital education services to Central and State Public Sectors, Government Organizations and Autonomous Bodies in India and overseas. The organisation has leveraged expertise gained over four decades, strong alliances and commitment of dedicated teams to ensure a strong national and global presence. These have strengthened our core competence in all areas of education and human resource development and has ensured that EdCIL remains on a growth path.

In an ever-evolving world, the education sector plays a pivotal role in shaping the future of a nation. The education sector in India has witnessed significant advancements and trends that have reshaped traditional teaching methodologies and learning environments. The National Education Policy (2020) focuses on disrupting learning domain through digitisation and making it equitable and accessible. Moreover, the pandemic-induced disruptions to the traditional education system have further accelerated the adoption of Edtech solutions. With a rapidly expanding internet user base, increasing smartphone penetration, and the push for digital education, IT/ICT has emerged as a catalyst for educational revolution in India and recognizing this need for innovation and seamless integration of technology in education, EdCIL has been at the forefront of catalysing the growth of this vital sector in India. Through its comprehensive range of services, EdCIL has spearheaded various initiatives to ensure a smooth transition to digital teaching-learning methodologies in both school and higher education; EdCIL has worked with various state governments as well as many higher education institutions such as IIM Shirmaur, IIM Shillong, NITIE Mumbai, etc to provide digital solutions such as Smart Classrooms, Interactive Digital Board Solution, Virtual Classroom Solution, Cloud Solutions, Learning Management Solutions, University Management Solutions and many more.

The NEP 2020 also focuses on promoting the Indian Higher Education to the world and once again establish India as one of the major leading destinations for international students to pursue their higher education. India has served as land for gaining knowledge and has believed in sharing it with other nations. Scholars from around the world came to the learning centres of Nalanda and Taxila. India still has one of the largest higher education systems in the world. The higher education ecosystem in India comprises of more than 1000 universities and 42,000 colleges imparting higher education.

MANOJ KUMAR
Chairman & Managing Director, EdCIL
Ministry of Education, Govt. of India

The 'Study in India' program, being implemented by EdCIL, opens the doors to a plethora of benefits to the international students through a robust and easy-to-use website, a 24x7 active helpdesk, webinars to address students queries and many such features. EdCIL has partnered with 250+ premier institutions of India that provide more than 2600 courses in fields like Engineering, Management, Law, Computer Application, Design, Architecture, etc offering a diverse range of career option to every student – national and international alike. The 'Study in India' program acts as a bridge, connecting international students to India's diverse educational landscape and fostering cross-cultural understanding and preparing the students into skilled global citizens who will drive a positive change for the world.

EdCIL is committed to have a more intense role in implementation of the National Education Policy 2020 by harnessing the potential of technology and create a dynamic, inclusive, and future-ready education ecosystem in India, supporting the government's vision of a knowledge-driven nation.
