[29] *Wide Bombay Transactions* , *vol.3* . pp.96–101. The article cited details of the 1819 earthquake. ‘That of 1819, however, destroyed upwards of 2,000 persons, and levelled to the ground the principal part of the towns of Bhuoj, Anjar, Mothora, Thera, Kotheree, Wulliah, Mandree, and Luckput; besides damaging many forts and other large works. The effects of this earthquake were distinctly felt in a range embracing a space of 18° latitude and 20° of longitude, extending to Calcutta on the east, Catmandoo on the north, Pondicherry to the south, and the mountains of Beloochistan to the west.’
