VEGETABLES

Top five nutrient-dense vegetables. Nutritionists recommend having five portions of differently coloured fruit and vegetables per day

KALE 1 cup (21 gm)
- Delivers potassium, calcium, copper and vitamins A, B, C, and K
- Linked to lowered blood sugar spikes, BP and cholesterol

BROCCOLI 1 cup (91 gm)
- Provides 77 per cent of the DV for vitamin K and 90 per cent for vitamin C, as well as folate, manganese and potassium
- Linked to lowered cancer risk and reduced inflammatory markers linked to heart disease

CARROTS 1 cup (128 gm)
- Packed with vitamin A, delivering 119 per cent of the Daily Value (DV)
- Contain beta carotene, an antioxidant that may help prevent cancer

SPINACH 1 cup (30 gm)
- 16 per cent DV for vitamin A and 120 per cent for vitamin K
- Also associated with lowered cancer risk

GREEN PEAS 1 cup (160 gm)
- Contains 9 gm of fibre, 9 gm of protein and vitamins A, C and K, as well as several types of vitamin B like riboflavin, thiamine, niacin and folate
- Linked to digestive health and reduced risk of tumours
