BRAND UP SHINES A

Over the past six years, Uttar Pradesh has experienced a remarkable surge in development, driven by the visionary leadership of Prime Minister Narendra Modi and the effective governance of Chief Minister Yogi Adityanath. This period has fostered an unparalleled environment conducive to economic growth and investment within the state. By streamlining investment processes, enhancing the ease of doing business, and accelerating infrastructure development, Uttar Pradesh has positioned itself as one of the fastest-growing state-level economies in the country. The transformative shift in the industrial landscape was evidenced by the staggering influx of investment proposals, totaling over Rs 38 lakh crore, during the 'UP Global Investors Summit' held in February 2023. In the fourth week of September 2023, Uttar Pradesh showcased itself to the world in a new light and style through two significant international events. On one front, the first edition of the 'UP International Trade Show' provided a platform for UP's products to access global markets, resulting in a business of Rs 5000 crore in five days. Artisans from UP left a lasting impression on businessmen from 60 countries, impressing them with their remarkable craftsmanship. Simultaneously, UP made waves in the international sports arena by successfully organizing the "Moto GP Race". Through these events, Uttar Pradesh has emerged as a global brand, leaving an indelible mark on the world stage.

With the inauguration of the first edition of "UP International Trade Show" by President Droupadi Murmu in the presence of Uttar Pradesh Chief Minister Yogi Adityanath on 21st September, 2023 in Greater Noida, Gautam Buddha Nagar, Uttar Pradesh, the state's products gained direct access to global buyers. The handicrafts, garments, and electronic products from Uttar Pradesh garnered the attention of consumers from all over the country and the world. During the five-day event, which took place from 21st to 25th September 2023 at the India Expo Mart in Greater Noida, more than three lakh people came for shopping. Notably, the exhibitors, who showcased their products at the trade show, received over 75,000 "Business to Business" (B2B) export orders. This successful outcome reflects Chief Minister Yogi Adityanath's commitment to showcasing the state's handicrafts and small-scale industries on the international stage through the UP International Trade Show 2023, achieving this goal in its very first attempt.

> "International trade show will prove to be a milestone in the state's progress. Uttar Pradesh has emerged as the fastest-growing state economy. UP has a significant role to play in helping India achieve its goal of becoming a $5 trillion economy."
>
> — **Droupadi Murmu**, *President of India*

UTTAR PRADESH PRODUCTS ACHIEVE GLOBAL DOMINANCE

The International Trade Show featured over 200 stalls, with participation from approximately 300 women entrepreneurs hailing from various districts of Uttar Pradesh. Notably, women who had established their small businesses under the Uttar Pradesh Rural Livelihood Mission, an initiative by the Uttar Pradesh Government, were also given a prominent platform at the event. Drawing attention from across the globe, the trade show welcomed 500 foreign buyers representing 60 different countries.

Throughout the event, Uttar Pradesh entrepreneurs secured an impressive one lakh export orders, marking a significant milestone in the state's efforts to establish itself as an international brand. This endeavor began with the "Global Investors Summit" in February of the same year, which saw road shows conducted in 16 countries, resulting in investment proposals exceeding Rs 38 lakh crore. Consequently, over three lakh visitors flocked to witness the products of Uttar Pradesh at the International Trade Show.

The event marked a historic occasion as it provided a global platform for the very first time to around 10,000 MSME entrepreneurs and craftsmen. Their products and skills garnered widespread acclaim from importers representing 60 countries. It is expected that in the next one year, export orders worth at least Rs 10 thousand crore and demand for products worth Rs 15 thousand crore on online platforms will prove to be a game changer for small entrepreneurs. The Yogi government has now decided to organize such events every year. The next trade show aims to welcome 5,000 new young entrepreneurs and create one lakh new employment opportunities. There will be no need for recognition for skilled exports.
