

Construction workers move from village to village for employment, causing their children to miss out on education. Chief Minister Yogi Adityanath has acknowledged my concerns for these children, and once they enroll in Atal Awasiya Vidyalaya, their families won't need to resort to labour work anymore."

—**Narendra Modi**, *Prime Minister*

the Government of India. Under the "PM SHRI" initiative, an ultra-modern technical and digital education system will be progressively developed in these schools, aligning with the principles outlined in the National Education Policy.

These schools will feature smart classrooms, ICT labs, language labs, science laboratories, and Atal Tinkering Labs. Furthermore, they will be transformed into environmentally friendly "green schools" through the installation of solar panels, LED lighting, energy-efficient resources, Poshan Vatikas, waste management systems, and water conservation measures. A skill hub center will also be established. To further elevate council schools, the Yogi government is planning to upgrade ten schools situated on the main roads of Lucknow and Barabanki, the capital of Uttar Pradesh. These schools will serve as demonstration schools, showcasing the state's improved education system and overall development to delegates and visitors from various states and abroad. The selection of these schools will be based on ground testing and geo-tag technology through the inspiration portal.

EDUCATION BECOMING UNIVERSALLY ACCESSIBLE UNDER 'YOGI RAJ'

- **EMPOWERING SC-ST STUDENTS:** In a significant move, the Yogi government is providing a substantial boost to students belonging to the Scheduled Castes and Tribes in the state. From the current financial year, the government will now give Rs 3,500 per year to the Scheduled Caste and Tribe students of classes 9 and 10 under the Pre-matric Scholarship. Previously, students in this category received an annual scholarship of Rs 3,000.
- **TALENT SEARCH COMPETITION:** Under the initiative of the Yogi government, the Uttar Pradesh Sanskrit Sansthan is conducting a Sanskrit talent search competition. The aim is to promote the Sanskrit language, cultivate students' interest in Sanskrit, and identify talented young individuals in Sanskrit, offering them financial assistance. This competition unfolds in three stages: district, division, and state levels.
- **MERIT BEST PREFERENCE:** In a bid to enhance transparency, streamline processes, and encourage talent, the state government has introduced significant rule amendments in scholarship schemes administered by the Minority Welfare and Waqf Department. A merit-based preference system is now in place, ensuring transparency in candidate selection.
- **BIOMETRIC ATTENDANCE:** The Yogi government is progressively introducing biometric attendance systems in schools. Institutions that do not implement biometric attendance will not qualify for scholarships from the financial year 2025-26. To simplify scholarship applications, the government is facilitating automatic linking of children's personal details with their Aadhaar information.
- **SCHOLARSHIP FOR THE FIRST TIME:** For the first time, students in classes 9 and 10 from families engaged in sanitation work will receive government scholarships. These students must submit certificates confirming their parents' and guardians' employment in unhygienic professions. These certificates should be issued by an authority authorized by the local body or state government.
- **TECHNICAL KNOWLEDGE IN MADRASA:** Aadhaar authentication has been integrated for students in Madrasas. Presently, 13,92,325 students are enrolled in 16,513 madrassas across the state. Computers have been provided to a total of 1,275 madrassas, and book banks, science kits, and mathematics kits have been supplied to 7,442 madrassas. Additionally, preparations are underway to introduce Artificial Intelligence (AI)-based education
