Having set high benchmarks, the bold developer has many aces up his sleeve, when disclosed, would surprise customers for their unique concept and content, high quality and competitive pricing.

ASHOK SINGH JAUNAPURIA
MD & CEO, SS Group

SUKHBIR SINGH JAUNAPURIA
Founder of SS Group

- **You started young in the real industry sector. Was it inspired by your father, Hon'ble Lok Sabha Member Shri Sukhbir Singh Jaunapuria, Founder of SS Group, and what have you learned from his experiences?**
  It is true that I am inspired by my father. Despite having a busy schedule as a politician, he still gives equal dedication and time to the company. The huge empire of SS Group that we see today is the result of his sole efforts. I have a marketing background and I learnt life's values such as humility, teamwork and even nuances of real estate from my father. I feel proud to say that today, I enjoy the unquestionable loyalty of my staff.
- **When did the concept of SS Group first develop and then established?**
  My father started SS Group not as a developer, but as a land acquisition company. In 2000, one day, a thought came to our mind that since we are doing land acquisition for developers why can't we venture into the industry as a developer, because all we had to do was only marketing and construction. The idea appealed and convinced us to launch ourselves as a developer in 2000, to never look back, excelling even in high rise construction, which was not our forte. Today, we do maximum high-rises in Gurugram and are known for our exceptional projects.
- **What are the unique properties of SS Group that you have introduced?**
  In maximum hi-rises there are two elevators for four apartments. But when we built our property Hibiscus, we gave it a very personal touch defining the comforts of life that one looks forward to such as absolute luxury, expansive living space, privacy, the feel of nature where there is plenty of fresh air, sunshine and an apartment with a panoramic view. Hibiscus has only two apartments with two elevators on a single floor, a concept which was a huge success. The Hibiscus success has since been carried forward in other landmark projects of SS Group namely, The Leaf, Lilac, Arron Ville, The Coral Wood, Almeria, SS Highpoint, SS Plaza and some others that were well-received by the customers. Our concept of the highly successful commercial project- SS Omnia, offering shops to hawkers and pedlars, provides an unique experience, which is unparalleled.
- **What keeps you motivated in an industry which has seen so many upheavals?**
  I love challenges. If you see my career of 22 years now in real estate, we have witnessed and survived 3-4 major market slow down. But, Gurugram, as a space for developers, is very different from rest of India. I have learnt that one should not be intimidated by the challenges life throws at us, instead keep our spirits high even in the face of toughest challenges. Nevertheless, it is important to deliver the apartments on time and honour our commitment to the customers.
- **Ten years from now where do you see SS Group in the industry ranking?**
  We are not in rat race of the number game. For SS Group, the customer feedback and a good word of mouth publicity in themselves are an achievement, which we value. We see ourselves to have a dedicated and expanding customer base built on goodwill and trust that the customers repose in us, for honouring promises of quality and delivery of projects on time. When it comes to customer retention and customer satisfaction, the SS Group ranks amongst the top names in real estate. We are the only developer who remains focused and does not move out of Gurgaon.
- **Your father represents the Parliamentary constituency of Tonk-Sawai Madhopur, where he is highly respected for his work. Kindly share is vision in life?**
  The objective of my father to get into politics was to serve mankind. When he saw that I and my brother Sushil Singh Jaunapuria, were capable of handling the business, he moved into politics and has throughout selflessly served people, even during the Covid pandemic. My father, is very humble, and believes that whatever he has achieved in life is because of God's blessings and the goodwill he has earned.
