KIRLOSKAR OIL ENGINES LIMITED (KOEL) : MARCHING WITH INDIA FOR THE LAST 75 YEARS, EAGER TO PARTICIPATE IN ITS PROGRESS FOREVER.....

SANJEEV NIMKAR,
MD & CEO, Kirloskar Oil Engines Ltd. (KOEL)

From the day Shri. Lakshmanrao Kirloskar founded the group to today...what do you shortlist as defining moments for the group.

For us, the introduction of the first Iron Plough in the country was a historic moment. It was symbolic of our country's march towards industrialization. The second milestone was the introduction of our indigenous Diesel engine in 1946. It was the time of our independence. And this was begining of Atmanirbhar Bharat for us. We cherish the CII - EXIM BANK BUSINESS EXCELLENCE AWARD -2019 for KOEL , as another defining moment for us.

As the market leader, setting new trends in the genset industry has been the key to KOEL's success for the past 75 years. KOEL's agility in driving change has given it a reputation of India's most reliable and fuel efficient genset manufacturer. What has the journey been like?

It has been a journey of constant changes and improvements. We have been constantly staying ahead of the technology curve to deliver apt solutions needed by the customers at that point in time. KOEL power generation business was the pioneer in introducing IOT enabled DG sets in the country. KOEL has the largest IOT connected fleet in India. Providing auto on-off for the DG sets as a standard feature is another pioneering step in the industry by KOEL. Setting up of an unparalleled service network in the industry has enhanced the customer care quotient of the brand.

Being India's leading manufacturing Conglomerate with a 75 year legacy, how does KOEL see itself strengthening the Nation by aligning with the Atmanirbhar Bharat initiative?

KOEL is proud to have produced the largest ingeniously developed engines and DG set range in the country. We have been supporting the requirements of the Indian Defense Forces and many Public sector units as preferred development partner and highly relaible solution provider. When it comes to rugged and robust construction equipment or highly reliable back up power Kirloskar Engines have been the first choice. Thus we support the country's infrastructure growth as well as vision of USD 5 Trillion Indian economy.
