

"Under the guidance of Prime Minister Narendra Modi, Uttarakhand is moving on the path of development. With the assistance of the Central Government, projects worth more than around rupees 1 lakh crore have been approved in the state in the last 5 years. Many of these projects have been completed and work is going on fastly on others."

— Pushkar Singh Dhami, Chief Minister Uttarakhand

ALL WAETHR ROAD : Prime Minister Narendra Modi inaugurated a 38 kilometer long patch of char dham all weather road, between srikot and Devprayag at national highway number 58 in presence of Chief Minister Pushkar Singh Dhami. The patch which was completed first and opened for travel is part of the 800 long char dham all weather road project which is not only strategically important and helpful for the travel of 4 shrines, but also very important for the development of the state. With the opening of the patch of char dham road, constructed with a fund of 257 crores, the completion of this part of the project also started.

DELHI DEHRADUN EXPRESSWAY : Construction of the expressway which is 175 kilometer from Delhi to Dehradun and 51 kilometer till Haridwar will cost rupees 8500 crore and rupees 2082 rupees respectively. This will reduce the distance from the national capital region to Delhi and Haridwar and make the journey comfortable. The travel time between Delhi to Dehradun will be reduced from 8 hours to only 2.5 hours on this expressway. A 12 km long wildlife elevated corridor will be constructed to clear the obstacles in the security and travel of wild animals. This will be the longest corridor for wild animals in Asia.

DEVELOPMENT OF PILGRIMAGE PLACES : Prime Minister Narendra Modi has laid the foundation stones of the development projects worth rupees 220 crores in Badrinath and 54 crores in Shri Gangotri yamunotri which will strengthen the infrastructure in the region. a 15 km long road from Najibabad to Kotdwar at National Highway will be expanded which will ease the connectivity between kotdwar and Najibabad. A bridge with a span of 132 meters will be constructed at river Ganga near Laxman jhula bridge. It will cost 69 crores rupees. An additional bridge with a span of 35 meters will also be constructed towards yog Nagari Rishikesh.

CULTURE CENTER HIMALAYAN : An hitech National level museum and auditorium for conservation of cultural heritage and to conserve all cultural activities of the state has become ready in state capital Dehradun. The center constructed with the fund of rupees 67 crores will provide opportunities to the creative artists of all forms to develop their skills and showcase them. Many facilities like hi-tech auditorium, National level museum and open air theater are available under one roof at the cultural center.

PERFUMERY AND AROMA LABORATORY : Uttarakhand nestled in the Himalayas not only has the world famous valley of flowers but its exclusive biodiversity has its unique identity in the world. State-of-art perfumery and Aroma laboratory has been established in Dehradun for conservation and development of herbs. This center will run research and development activities in association with international institutes. This will boost the cultivation of herbs and the rural economy.

SAINYA DHAAM : State government is constructing Sainya dham in Dehradun. Soil from the houses of the soldiers who laid their life for the country is being collected. Prime Minister Narendra Modi's vision is that like people come for the pilgrimage of 4 shrines in Uttarakhand, in the same manner they should also reach Dehradun to see the fifth shrine which is Sainya dham. The saga of Martyrs will be showcased and broadcasted with the help of light and sound show at Sainya dham. A museum will also be constructed here.

VYASI HYDRO POWER PROJECT : Prime Minister Narendra Modi inaugurated vyasi hydro power project which has the capacity of 120 mw. The speciality of the Vyasi hydro power project is that it will generate 353 million unit electricity annually. The cost of this project is rupees 177 7.30 crores. During the construction of the project, employment opportunities of around 25 lakh human days and 55 permanent jobs in class 3 have been generated for the people affected from the project.
