CHIEF MINISTER PUSHKAR SINGH DHAMI IN MISSION MODE FOR A HEALTHY UTTRAKHAND

- Uttrakhand is a leading state in Covid vaccination campaign. The state administered the first dose of covid vaccine to the hundred percent of eligible people in the state. More than 65% of people have taken the 2nd dose of covid vaccine also. 331 mobile teams have been constituted for mobile vaccination.
- Initially there was not a single lab in the state for the testing of coronavirus. Currently 11 Government and 26 private labs are there. At present the number of isolation beds are more than 31 thousand while the number of ICU has reached 1655.
- For a probable third wave of covid state, a task force has been constituted to keenly monitor and do arrangement and preparations for its control. 2097 oxygen beds, 475 ICUs, 465 PICU for children have been activated.
- There is an increase of 53% in the number of ICUs. In March 2020 there were only 116 ventilators in the state and the number has now increased to 1016. oxygen cylinders are 22420. oxygen concentrators have also increased from 275 in 2020 to 9838 at present.
- It has been decided to conduct genome sequencing of every covid positive patient in the lab of Doon medical College. The covid-19 testing rate in Uttarakhand is more than the National average. Hospitals have enough medical and paramedical staff.
- The mid day meal scheme in the state will now run under the name of Pradhan mantri poshan Shakti Nirman. Along with providing food to the children in school the focus will now be to give them nutrition also. Under this scheme cooked food will be provided to the children of Pre primary.
- Uttarakhand has registered improvement in the cases of infant deaths at the time of delivery. The report of registrar general sample registration system says that while the National average for infant death of 1000 new born babies is 30, in Uttarakhand it is 27.
- More than one lakh eighty five thousand pregnant and postnatal mothers registered at anganbadi centres of state, will get fruits, egg and milk twice in a week under mukhymantri mahila poshan Yojana. There is a provision to give dry fruit in place of eggs also.
- The Dhami government has given a gift of the country's lowest fee structure to the students of government medical colleges. The fee for one year for the students of MBBS course has been reduced from rupees 4 lacs to 1.45 lacs.
- The golden card holders of Atal Ayushman Bharat and state Ayushman scheme are getting the benefit of free transplant of kidney from 1st November. More than 44 lac beneficiaries have golden cards in the state.
- To save children from pneumonia, a campaign named 'Saans' is being run from 12 November to February 2022 in Uttarakhand. Under the campaign Asha and frontline workers are going door-to-door and telling people the symptoms of pneumonia and making arrangements for treatment.
- After the recommendation of the 15th financial commission, the state will get Rs 797 crores in 5 years to strengthen the health facilities at villages, towns and cities. This will further improve the health infrastructure at primary Health centres and aarogya centres.
