ALUMNISPEAK

"We had role models who instilled in us a sense of ethics and professionalism—the 'JIPMER gene'. Many of our alumni were unable to work in institutions with questionable work ethics"

DR GITANJALI BATMANABANE
PRO VICE-CHANCELLOR (MEDICAL SCIENCES), GITAM INSTITUTE OF MEDICAL SCIENCES & RESEARCH, VISAKHAPATNAM

bedside teaching by all clinicians starting from the juniormost postgraduate to the heads of the departments put its undergraduate training in a level of its own. The faculty and MBBS student interaction is awe-inspiring. The faculty strives hard to keep up-to-date with the latest in their fields and in medical education technology.

JIPMER is one of the few Indian institutions that provide teaching from undergraduate to super speciality and sub-specialties. Its success in providing the best treatment even to the underprivileged makes it a model of speciality care delivery. Apart from 1,000 MBBS students, there are 650 post-graduate and 100 super speciality medical students on the 192-acre campus. In addition to the 350-strong faculty, there are 4,500 employees as it has a 2,100-bed hospital that treats at least 8,000 outpatients a day. It is also expanding, with a campus at Karaikal and an outreach centre at Yanam. JIPMER seeks to be a model for health systems through innovations in education and patient-oriented research. It aims to develop compassionate, ethically sound professionals and provide service of the highest order across the healthcare continuum. ■

NO. 3 **KING GEORGE'S MEDICAL UNIVERSITY,** *Lucknow*

FIT TO TREAT ROYALTY

The chapter you are learning today is going to save someone's life tomorrow. Pay attention." It is what teachers often tell medical students at the King George's Medical University (KGMU) in Lucknow. Quality education is a foremost priority for future doctors and KGMU Lucknow is committed to providing it. One of the oldest medical institutions in India, KGMU is the leading medical university in Uttar Pradesh.

King George V, then the Prince of Wales, laid the foundation stone of King George's Medical College in 1906. The college opened its gates in 1911, though the official opening ceremony was delayed to January 1912. The college was directly under the Government of the then United Provinces, and degrees were awarded through Allahabad University. In 1921, the college came under the purview of Lucknow University. Since 1922, the college and hospital has expanded in several directions. In 2002, the government of Uttar Pradesh granted university status to the college.

The university campus is spread over an area of roughly 100,000 square metres, with separate buildings for medicine, surgery, paediatrics, obstetrics & gynaecology, cardiology, neurology, psychiatry, neurosurgery, plastic surgery, rheuma-

GURUSPEAK

"KGMU has had a glorious past. We are determined to continue in that path and have improved infrastructure, human resources. We encourage innovation at undergraduate, postgraduate levels too"

DR BIPIN PURI, V-C, KGMU, LUCKNOW
