

BACKGROUND GLORY Students flank a teacher at KGMU, Lucknow

MANEESH AGNIHOTRI

tology, geriatric mental health, surgical oncology, chest medicine, pathology, pharmacology, anaesthesiology, ophthalmology, urology and community medicine. The cardiothoracic surgery department is in the chest medicine building, microbiology along with pathology and biochemistry along with physiology.

KGMU provides fellowships in several programmes: in burn and reconstructive surgery, child and adolescent psychiatry, cleft orthodontics craniofacial surgery, sleep medicine, sports medicine, spine surgery etc. A new certificate course for community health for nurses in collaboration with the government of India and the National Health Mission has also been introduced. A training module for healthcare workers in Hindi and English is available on the KGMU website and is used by institutions across the state.

Among the new initiatives at KGMU are the Advanced Mycology Diagnostics and Research Centre (Department of Microbiology) and a genetic diagnostic unit under the National Inherited Diseases Administration (NIDAN).

The first human milk bank of the state was inaugurated on March 5, 2019 at KGMU. The university also imparts soft skills training for paramedical students and has started a community radio service to make people aware of health-related issues and their possible solutions. ■

ALUMNISPEAK

"As a third-generation doctor from KGMU, I was born and brought up on campus. The institution has nurtured us, laid a foundation stone for our future. Teachers helped us a lot during our studies"

DR SANJEEV MISHRA
DIRECTOR, AIIMS, JODHPUR
