It's a strange irony. The Indian higher education universe is one of the largest in the world—populated by more than 1,000 universities and 40,000 colleges, with 248 new universities added in the past seven years—yet its universities remain way below their potential on global benchmarks. There is no doubt among all stakeholders that India's higher education system needs urgent implementation of reform.

The blueprint has been ready for a while. On July 29, the country celebrated the second anniversary of the New Education Policy (NEP) 2020. It promised to be the catalyst needed to address the multi-dimensional challenges in the Indian education system and transform it. But like much else in India, NEP 2020 too is stuck due to tardy implementation by the concerned authorities.

The gap in quality of education in govt and pvt universities is stark. Of the 2,000 score, top 10 govt general universities score 1,830-1,575, and pvt general universities 1,611-1,356
