5	ALL INDIA INSTITUTE OF MEDICAL SCIENCES (AIIMS), NEW DELHI	2,843

Average number of patients attended by a final-year student (MS/MD) with the help of senior doctors in various OPDs (in final year)

ALUMNISPEAK

"It didn't matter if you could not find a satisfactory answer—the question still had to be framed correctly and the ways to answer it thought out. This learning at AIIMS has continued to help me in my career"

DR AMBRISH MITHAL, CHAIRMAN, MAX HOSPITALS, DELHI

TRIVIA

- New students receive a welcome with a fresher's party that can run till late hours and a student guardian who helps integrate you into institute life
- Founded by Rajkumari Amrit Kaur, the institute was fashioned in the gurukul model where students and staff stayed together on campus.
- A tradition that still continues
- The average student-teacher ratio is 26:1 in India; it is estimated to be 6:1 at AIIMS

encouragement given to the spirit of inquiry. To not accept anything in textbooks as sacrosanct, question every concept, then try to find the answer yourself," says Dr Ambrish Mithal, chairman and head of endocrinology and diabetes at Max Hospitals, Delhi, who was one of the two students who attended the first batch of DM training in endocrinology in 1984.

Now, new courses are available in Operation Theatre Technology, Dental Operating Room Assistant and Dental Hygiene. Infrastructural additions include a new dedicated mother and child block and OPD. "AIIMS is constantly adapting to stay relevant with the times. But one thing that stays with us throughout is that we want our doctors to be trained holistically and that now includes skill sets such as communication, ethics and digital simulation," says Dr Guleria. It is this ethos of having doctors with medical skills, soft skills and technical skills that will keep graduates from AIIMS a cut above the rest. ■
