victim and a slave of life. Indulge in right action with all your strength and energy, it said, but keep above it, and do not worry m u c h about the results of such action. Thus it taught detachment in life and action, not abstention from them. This idea of detachment runs through Indian thought and philosophy, as it does through most other philosophies. It is another way of saying that a right balance and equilibrium should be kept between the visible and invisible worlds, for if there is too much attachment to action in the visible world, the other world is forgotten and fades away, and action itself becomes without ultimate purpose. There is an emphasis on truth, a dependence on it, a passion for it, in these early adventures of the Indian mind. Dogma or revelation are passed by as something for lesser minds which cannot rise above them. T h e approach was one of experiment based on personal experience. T h a t experience, when it dealt with the invisible world, was, like all emotional and psychic experiences, different from the experience of the visible, external world. It seemed to go out of the three-dimensional world we

know into some different and vaster realm, and was thus difficult
