on the other side. Then when people think he rises in the morning, he only shifts himself

about after reaching the end of the night, and makes day below and night to what is on the

other side. In fact he never does set at all.'

It is obvious that the ideas of the authors of the Upanishads, the rarefied mental atmosphere in which they moved, were **confined** to a small body of the elect who were capable of u n d e r standing them. They were entirely beyond the comprehension **of** the vast mass of the people. A creative minority is always small in numbers but, if it is in tune with the majority, a n d is always trying to pull the latter up and make it advance, so that the gap between the two is lessened, a stable and progressive culture results. Without that creative minority a civilization must inevitably decay. But it may also decay if the bond between a creative minority and the majority is broken and there is a loss of social unity in society as a whole, and ultimately that minority itself loses its creativeness and becomes barren a n d sterile; or else it gives place to another creative or vital force which society throws u p "
