fcertainly also happens, and it is well-known that unregulated Yoga has sometimes led to unfortunate consequences so far as the mind of the person is concerned.

But before these final stages of meditation and contemplation are reached, there is the discipline of the body and mind to be practised. The body should be fit and healthy, supple and graceful, hard and strong. A number of bodily exercises are prescribed, as also ways of breathing, in order to have some control over it and normally to take deep and long breaths. 'Exercises' is the wrong word, for they involve no strenuous movement. They are rather postures—asanas as they are called-—and, properly done, they relax and tone up the body and do not tire it at all. This old and typical Indian method of preserving bodily fitness is rather remarkable when one compares it with the more usual methods involving rushing about, jerks, hops, and jumps which leave one panting, out of breath, and tired out. These other methods have also been common enough in India, as have wrestling, swimming, riding, fencing, archery, Indian clubs, something in the nature of ju-jitsu, and many other pastimes and games. But the old *asana* method is perhaps more typical of India and seems to fit in with
