ferment at work which might have yielded rich results if only an opportunity had been given to it to fructify. Jai Singh was no anachronism or solitary thinker in an unfriendly and uncomprehending environment. He was a product of his age and he collected a number of scientific workers to work with him. Out of these he sent some in the embassy to Portugal, and social custom or taboo did not deter him from doing so. It seems probable that there was plenty of good material for scientific work in the country, both theoretical and technical, if only it was given a chance to function. That opportunity did not come for a long time. Even when the troubles and disorders were over, there was no encouragement of scientific work by those in authority.

The Economic Background of India: the two Englands

What was the economic background of India when all these far-reaching political changes were taking place? V. Anstey has written that right up to the eighteenth century, 'Indian methods of production and of industrial and commerical organization could stand comparison with those in vogue in any other part of the world.' India was a highly developed manufacturing country exporting her manufactured products to Europe and other coun-
