and longingly at the vast progress made by the United States during this period, and compares it with what has been done and what has not been done in his own country. It is true no doubt that the Americans have many virtues and we have many failings, that America offered a virgin field and an almost clean slate to write upon while we were cluttered up with ancient memories and traditions. And yet perhaps it is not inconceivable that if Britain had not undertaken this great burden in India and, as she tells us, endeavoured for so long to teach us the difficult art of self-government, of which we had been so ignorant, India might not only have been freer and more prosperous, but also far more advanced in science and art and all that makes life worth living.
