

Life's taken a turn for the better post-Tokyo, boosting Aditi's popularity which helps in getting sponsorship—Radisson Hotels Americas and Hyundai India—to pursue this expensive sport. At the West Lake International Course in Hangzhou, Aditi will follow a tradition since her junior days and have one of her parents as her caddy. This time, it's dad Ashok with the bag. Says Aditi, "My dad and I tend to have more discussions about the shot as he knows my game well enough to help." The nation will be banking on Aditi to finish one better than Tokyo if not more.
