MUKHYAMANTRI NISHULK NIROGI RAJASTHAN (MEDICINE) SCHEME

TRANSFORMING HEALTHCARE ACCESSIBILITY IN RAJASTHAN

Rajasthan took a pioneering step by initiating the free medicine scheme. Patients visiting hospitals no longer need to worry about purchasing medicines, as they are readily available within hospital premises at no cost. This scheme, initially called Mukhyamantri Nishulk Dawa Yojana, was launched on October 2, 2011, and later renamed as Mukhyamantri Nishulk Nirogi Rajasthan Yojana (Dawa). This initiative aligns with Mahatma Gandhi's vision of a Healthy India and has drawn attention from other states, leading to the adoption of similar schemes.

The primary aim of this scheme is to offer completely free treatment at government hospitals and health institutions. Patients visiting outpatient departments (OPD) and inpatient departments (IPD) in medical colleges, district hospitals, community health centres, primary health centres, and sub-centres receive free medicines.

Chief Minister Ashok Gehlot is committed to ensure that patients never face issues due to lack of medicines. This commitment led to an expansion of the free medicine scheme's scope, a total of 2472 items including 1331 medicines, 956 surgical items, and 185 sutures. It is to be mentioned that Rajasthan ranks first in the entire country in regard to free medicines. Actually, the Government of India through DVDMS software takes stock of this scheme every month and gives ranking every month.
