satellite. Reporting of more than 22.85 lakh x-ray imaging of more than 17.33 lakh patients was done from August 2019 to June 2023. The emphasis is not on x-ray alone but on CT scan and MRI also for serious disease like cancer. At present, facility of 40 types of special tests are made available to every category of patients at 37 district, sub district and satellite hospitals on outsource mode including tests of national programme such as cancer, hormones etc. Under the special tests facility, more than 1.51 crore tests of more than 23 lakh patients have been done from October 2019 to June 30, 2023.

RAJASTHAN LEADS THE WAY

FORGING THE RIGHT TO HEALTH IN INDIA

Rajasthan, the first state in the country to bring such a unique Act.

The Right to Health has been enacted in the state. Rajasthan has become the first state to introduce the Right to Health. Chief Minister Ashok Gehlot has appealed to Prime Minister Narendra Modi to bring such a law to the entire country. It is to be mentioned that Rajasthan was the first state to implement the Right to Information law. The Right to Information was called the third biggest revolution after the Green and White Revolution. In this way, the Right to Health will prove a Health Revolution. Overall, the picture of treatment in Rajasthan is going for an overall change. Along with this, it is hoped that in coming years, Rajasthan will get the status of healthiest state in the country. According to the experts, the Right to Health is a big game-changing idea and if it is implemented in the entire country then it will prove as a lifesaver to the population of 140 crore people. This initiative was taken by Rajasthan and Chief Minister Ashok Gehlot has become its proponent.

The entire population of the state has the legal right to get treatment in the government and identified private hospitals under the Right to Health. With the implementation of the Act, the accountability of the hospitals in the health service sector will be fixed. With this, the facility of free treatment will be available in the government hospitals and every citizen will get a benefit of cashless treatment in identified private
