

RAJASTHAN SETS WORLD RECORD

143 LAKH ORGAN DONATION PLEDGES IN A SINGLE DAY

The general public in the entire state up to the village level were inspired by administering an oath to donate organs on the occasion of national organ donation day. Rajasthan has set a world record as 143 lakh people took an oath to donate organs on a single day. The number of people taking oath to donate organs in this campaign is constantly increasing.

Rajasthan's progress in healthcare, be it the Udaan Scheme, COVID-19 management, state-of-the-art medical infrastructure, or organ donation initiatives, showcases the state's determination to provide its citizens with comprehensive and advanced healthcare services.

However, the Chief Minister acknowledges that despite these efforts, the number of organ donations remains low. Encouraging the society to pledge their organs and fostering a positive mindset towards organ donation is vital. This campaign exemplifies Rajasthan's commitment to saving lives and fostering a culture of compassion and empathy.

RAJASTHAN EMERGING AS A CENTRE FOR HEALTHCARE EXCELLENCE IN INDIA AND WORLDWIDE

Previously, residents of Rajasthan used to travel outside the state for bypass surgeries. However, today people from various places come here for organ transplants. Remarkable advancements and innovations in the medical and healthcare sector of Rajasthan have significantly simplified treatments. On one side, diagnostic tests are provided free of cost, while on the other side, world-class facilities are available. Long waiting queues at government hospitals for registration or test results are now history, as numerous services can be accessed with a simple click. The SMS Hospital is now venturing into medical tourism, attracting patients from other states who even seek surgeries for height enhancement. The Skin Bank, a specialized Super Specialty Centre, has been inaugurated at SMS Hospital, a unique establishment in northern India, enabling the preservation of skin for 3 to 5 years. Skin donation is also gaining traction. Notably, an exclusive 22-bed ICU dedicated to brain stroke patients has been set up at SMS Hospital. This unit is equipped with advanced ventilators, central monitoring systems, and other cutting-edge amenities. Alongside neurosurgery, specialized teams of senior doctors in orthopaedics, cardiology, and urology are also available. The surgical department has achieved a Guinness World Record, further adding to its accolades. Additionally, SMS Medical College has achieved a significant milestone by conducting bone marrow transplants, making it the first government medical college to do so. This means patients no longer need to travel to cities like Ahmedabad or Mumbai for these procedures. In fact, bone marrow transplants are now conducted free of cost in Jaipur under the Chiranjeevi scheme.

Over 250,000 patients from outside Rajasthan seek care at SMS Hospital. In the year 2022, the outpatient department (OPD) saw a total of 3.1 million patients, out of which 250,000 were from other states. Similarly, in 2021, the hospital

Chief Minister Gehlot holding a dialogue with the family members of organ donors took a positive initiative. Shayar Mal said that his 20-year-old son was declared brain dead and the family donated both his kidneys and liver. Mohan Lal Meena said that his father donated him a kidney and it was transplanted under the Chiranjeevi Scheme. Dhauli Devi of Alwar underwent a heart transplant in the Chiranjeevi Scheme.
