# HERO ACCELERATES ITS PREMIUM RIDE

Hero MotoCorp, the world's largest motorcycle and scooter manufacturer is now stepping into the world of premium motorcycles and creating waves already

Dr Pawan Munjal, Executive Chairman, Hero MotoCorp with Jochen Zeitz, Chairman, President and CEO, Harley-Davidson at the launch of Harley-Davidson X440 motorcycle at Hero CIT

Think Hero MotoCorp and the first thing that comes to mind is the fact that the company is the world's largest two-wheeler manufacturer. Being the world's largest two-wheeler manufacturer is an accolade in itself, the company is turning the tables when it comes to technology and premium offerings. So much so that iconic American motorcycle manufacturer Harley-Davidson turned to Hero MotoCorp when it came to developing a brand-new motorcycle for India and the world. The Harley-Davidson X440 then became the first premium motorcycle to be introduced under the licensing agreement between the two brands. The Harley-Davidson X440 marks Hero MotoCorp and Harley-Davidson's foray into the 440cc segment for the first time in India. Co-developed by Hero MotoCorp and Harley-Davidson at the Hero CIT, the Harley-Davidson X440 will be manufactured at the company's Garden Factory at Neemrana, in the northern Indian state of Rajasthan.

Dr Pawan Munjal, Executive Chairman, Hero MotoCorp, under whose leadership all this magic is happening said, "The launch of the Harley-Davidson X440 is a significant milestone in our premium journey and lays a strong foundation for our future growth. The motorcycle brings the best of the iconic Harley-Davidson's signature elements with the manufacturing expertise and trusted quality of Hero. Together, we aim to create a unique value proposition for customers in the Indian market and target a wider range of motorcycle enthusiasts."

The Harley-Davidson X440 is a true performer, delivering best-in-class value and performance. At the heart of the Harley-Davidson X440 is the all-new 440cc oil-cooled, long-stroke BSVI (OBD II) and E20 compliant engine, a first for Hero MotoCorp. The engine offers a best-in-class power output of 27bhp as well as the best-in-class maximum torque of 38Nm.

The Harley-Davidson X440 will also offer premium features which include automatic lights, a wide palette of colours, digital instruments with Bluetooth connectivity, and so on. Adding to the already attractive package is the fact that the Harley-Davidson X440 also comes with accessories like a comfortable touring seat, back rest, bar end mirrors, bash plate, fog lamps, windscreen, and saddle bags all of which add to the character of the motorcycle and enable the owner to customize the bike.
