### ANIL AGARWAL, 69

FOUNDER & NON-EXECUTIVE CHAIRMAN, VEDANTA RESOURCES

# MINE FORCE

**BECAUSE** Vedanta Resources, one of the world's foremost natural resources conglomerates, has tied up with Taiwanese major Foxconn to jointly put Rs 1.5 lakh crore (substantially subsidised) to set up the country's first semiconductor facility in Gujarat. According to Counterpoint Research and the India Electronics & Semiconductor Association, the Indian

# THE INTEGRATOR

## 12→

### NANDAN NILEKANI, 67

CO-FOUNDER & NON-EXECUTIVE CHAIRMAN, INFOSYS

**BECAUSE** he is the pioneer in conceiving and implementing India's digital building blocks such as UPI, Aadhaar, eKYC and FASTag. He also helped the government develop the IT infrastructure to roll out GST and the Ayushman Bharat Yojana. The cerebral entrepreneur is the government's go-to person for tech intervention, irrespective of the party in power

**BECAUSE** he was instrumental in the launch of the Beckn protocol, now being used in sectors such as e-commerce, mobility and health. He was involved in the government-backed Open Network for Digital Commerce, aimed at helping small Indian retailers fight back against e-com giants such as Amazon and Flipkart. He is also supporting IIT Madras's AI4Bharat, an open-source AI initiative, in 22 Indian languages

**NO, THANKS** **Despite being a pioneer in the tech arena, Nilekani doesn't use WhatsApp**

**BECAUSE** from being a member of the Supreme Court-directed committee to investigate the allegations made in the Hindenburg Research report against the Adani Group to getting appointed as the co-chair of a G20 Task Force, his opinion counts and is sought on a regular basis
