semiconductor market is expected to be worth $64 bn (Rs 5.4 lakh crore) by 2026; in 2019, the figure stood at $22.7 bn (Rs 1.9 lakh crore)

BECAUSE Vedanta is holding a steady course with revenues of Rs 1.45 lakh crore in FY23, up 11 per cent year-on-year, despite global commodities markets facing multiple headwinds, such as inflationary pressure, weak macroeconomic scenario, recessionary pressure across Europe, liquidity crunch across some developing countries, and muted demand pick-up from China

BECAUSE Vedanta has been one of the biggest beneficiaries of the ongoing mining reforms of the government, among them a special push to open up mineral mines and seek more private participation

PLEDGE EDGE **The dynamic Agarwal is the only Indian to have joined The Giving Pledge founded by Warren Buffet, Bill and Melinda Gates, committing 75 per cent of his wealth to philanthropy**

13

SHIV NADAR, 77
FOUNDER, HCL GROUP

ROSHNI NADAR MALHOTRA, 41
CHAIRPERSON, HCL TECH

CHIP OF THE OLD BLOCK

BECAUSE Shiv Nadar and his daughter Roshni Nadar Malhotra drove HCL's revenues to cross Rs 1 lakh crore in FY23. With an m-cap of about Rs 3 lakh crore, the multinational IT services giant is among the top 20 traded firms in the country

BECAUSE the Nadars are heavily into education, philanthropy and art. The Shiv Nadar University has received the government's Institution of Eminence status. Their charity, the Shiv Nadar Foundation, is funding smart classrooms at 128 government schools in Tamil Nadu's Thoothukudi district. It is also setting up assets for healthcare, drinking water supply etc. in association with the government agencies there. Roshni's pet project VidyaGyan is a leadership academy for the economically underprivileged and meritorious students of Uttar Pradesh. Their Kiran Nadar Museum of Art has unveiled the model of a 100,000 square metres grand structure to be built in Delhi to house their growing collection of over 10,000 artworks

BECAUSE Shiv and Roshni's views matter in all government efforts towards last-mile digital penetration and digitisation of public services

THE WIZARD **Shiv Nadar is known as 'Magus' among friends and contemporaries**
