21 SHAH RUKH KHAN, 57

BOLLYWOOD ACTOR

THE BADSHAH IS BACK

BECAUSE after a four-year hiatus, the Badshah of Bollywood is back with a bang. His film *Pathaan* not just revitalised the struggling Bollywood film industry but went on to become the highest-grossing Hindi film in India (Rs 543 crore)

BECAUSE Shah Rukh is changing the rules of film marketing and promotions. Instead of attending pre-release events and media interactions, he chose to engage directly with fans via candid #AskSRK sessions on Twitter. He is expected to repeat the formula for future releases

BECAUSE he is one of the richest actors in the world. With a business empire that includes a cricket franchise (Kolkata Knight Riders), the actor ranks fourth globally with a net worth of $770 million (Rs 6,295 crore), as per the World of Statistics report

GO FIGURE **An SRK signed leather jacket priced at Rs 2 lakh was part of a collection put out by son Aryan Khan's luxury brand D'yavol X. It sold out in a day after the online launch**

BECAUSE in his next release, the home production *Jawan*, Khan is looking to make inroads in the south. He is collaborating with popular Tamil director Atlee. Co-stars include Nayanthara and Vijay Sethupathi
