SRI SRI RAVI SHANKAR, 67

FOUNDER, ART OF LIVING FOUNDATION

Rishi of Peace

BECAUSE his commitment to help others saw the Art of Living Foundation carry out extensive relief work after Russia invaded Ukraine last year. This included mental health counselling to 22,342 refugees, shelter to over 650 families, and serving 32,617 meals in nine countries across Europe

BECAUSE in a climate defined by the spectre of war, he took the message of pacifism to the global stage by launching the 'I Stand for Peace' campaign from the UN office in Geneva last year, lending his soft-spoken voice to the anti-war sentiment

BECAUSE he has been helping farmers in Karnataka adopt natural farming with indigenous seeds, financial literacy and social media marketing

FROM PHYSICS TO METAPHYSICS **Ravi Shankar completed B.Sc. in physics in 1977. A job with a bank was on offer, but he decided to pursue Vedic studies, with the blessings of his father**

BECAUSE with over 180 Art of Living centres around the world, he has been instrumental in taking meditation and yoga to a global audience
