PAWAN MUNJAL, 69

CHAIRMAN, MD & CEO, HERO MOTOCORP

Illustration by **MANJUL**

REMADE IN INDIA

BECAUSE he is the world's largest manufacturer of motorcycles and scooters, having sold more than 100 million units so far. Hero Motocorp not only dominates the Indian market but also has a presence in 40 countries across the world

BECAUSE Hero Splendor continues to be the leader in the Indian two-wheeler market, nudging Activa, the automatic scooter by the company's erstwhile partner Honda. The growth of the two-wheelers market is an indicator that paying capacity is expanding in the lower-middle class. And Hero remains one of the preferred two-wheeler brands for most Indians

BECAUSE Munjal's efforts to promote multi-hub research and development as well as the electric two-wheeler Vida have helped the industry expand and evolve

LEISURE MANTRA **Munjal is an avid golfer and globetrotter. He is also big on music and loves listening to Indian songs from the '60s and '70s**

Pitch Perfect

BECAUSE she led the Women in Blue to a silver medal at the Commonwealth Games in 2022, and is also the first Indian female cricketer to be named the ICC Player of the Month in September last year for her performance in the England series. She was also the captain of Mumbai Indians, which won the inaugural Women's Premier League. No wonder then that Wisden ranked Kaur as one of the five Cricketers of the Year, again the first Indian female cricketer to earn that feat

CHILDHOOD CRUSH **Fondly called 'Harry Di' by her team-mates, Kaur idolised Virender Sehwag when she was young**

DIGITAL RIDER

BECAUSE Ola continues to be the top player among digital ride hailing services in India

BECAUSE his bold decision to enter the electric two-wheeler manufacturing space seems to be bearing fruit, with Ola reporting operating profits. The company has sold about 2 million electric scooters so far. Aggarwal is now planning to increase the manufacturing capacity by nearly four times

BECAUSE Ola Electric controlled almost 40 per cent of the EV scooter market in India this April, selling over 30,000 units, the company's highest-ever monthly sales
