Land Records Modernization Programme, Department of Land Resources under Ministry of Rural Development.

The second phase of the mission will begin in November 2022. In its second iteration, the mission will offer land settlement related services to eligible occupiers (homestead, ordinary cultivation, pisciculture, special cultivation, hereditary land of tribal communities), confer ownership rights to occupancy tenants (raiyats), auto mutation after sale of land and online payment of land revenue. These services will be available through the ARTPS portal.

Mission Basundhara has metamorphosized into an umbrella project, which, apart from its core components, contemplates of a legislative framework for guaranteed land titles, strengthening and decentralised survey architecture, geo-spatial services, and a robust tax administration through revenue augmentation. The objective is also to build and improve the digital infrastructure in revenue circles and accordingly, there has been a substantial provisioning of IT infrastructure to the revenue circles, improved connectivity with bandwidth augmentation. To overhaul the entire IT framework to enable seamless services, many more initiatives are in the offing. "This is the beginning of a continued exercise guided by the prime minister's vision of an India, where citizens can hold the administration accountable for every service they are entitled to," says Sarma. ■

THE FAST-TRACK SERVICE

The mission began on October 2, 2021, and the deadline for disposal was set for May 8, 2022

JAN 2022	2,84,279
FEB	4,27,258
MAR	6,55,844
