GOVERNMENT'S WELFARE SCHEMES

ing in increased income for the people. The Ghurva and Badi Development Programmes have aided in promoting organic farming and improving nutrition levels in the state.

EFFECTIVE STEPS FOR IMPROVING THE FINANCIAL SITUATION OF WEAKER SECTIONS

Progress in the agriculture sector is essential to combat poverty in the country, especially among the financially weaker sections. The Chhattisgarh government has taken concrete steps, leading to continuous improvement in the financial condition of numerous farmers in the state. During the government's five-year term, in addition to government subsidies under the Rajiv Gandhi Kisan Nyay Yojana, several decisions have been made for the upliftment of Chhattisgarh's farmers, setting an example for other states."

The state government's decisions have led to record production and an increase in the income of farmers, while meaningful steps have been taken for landless agricultural laborers under the Rajiv Gandhi Gramin Bhoomiheen Krishi Mazdoor Nyay Yojana. The state government is implementing Nyay Yojana for farmers, laborers, and tribal communities. Opportunities are being created for them, strengthening the rural economy. Additionally, besides expanding the basic infrastructure in urban areas, the state government is also strengthening education and healthcare infrastructure. In this direction, in August 2023, the state government transferred 1,810 crore rupees under the second installment of the Rajiv Gandhi Kisan Nyay Yojana, 168.63 crore rupees under the Rajiv Gandhi Gramin Bhoomiheen Krishi Mazdoor Nyay Yojana, 66.21 crore rupees for the Rajiv Yuva Mitan Club, 9.65 crore rupees for the beneficiaries of the Godhan Nyay Yojana, and 1.11 crore rupees for the Mukhyamantri Parab Samman Nidhi Yojana.

CONTRIBUTION OF THE GODHAN NYAY YOJANA IN INCREASING RURAL INCOMES

The Chhattisgarh government's Godhan Nyay Yojana has created multifaceted opportunities for employment and self-reliance. Under this scheme, the government's purchase of cow dung at two rupees per kilogram and cow urine at four rupees per liter has provided rural livestock keepers with additional income. The use of cow dung for the production of compost and other materials, organic pesticides from cow urine, the production of Bramhastra and Jeevamrit, the manufacture and sale of natural paint from cow dung have all contributed to an increase in people's income. More than two lakh women have become economically empowered by embracing various income-generating activities related to Gauthans. Under the Godhan Nyay Yojana, beneficiaries have received payments of more than 551 crore rupees from the government to date.

ESTABLISHMENT OF 488 UNITS BASED ON AGRICULTURE AND FOOD PROCESSING

In the state, 486 units have been established in just over three years, based on agriculture and food processing, with an investment of 931 crore rupees. Similarly, the Chhattisgarh government is working towards increasing employment and self-employment opportunities in the state through the implementation of a new industrial policy. Over the past four years, the state's exports have seen a threefold increase. In the year 2019-20, exports of rice, iron, steel, aluminum, and aluminum products amounted to 9,067.29 crore rupees, in 2020-21 it was 17,199.97 crore rupees, and in 2021-22, it reached 25,241.13 crore rupees. The simplification of industry establishment regulations and incentives provided to entrepreneurs have created a favorable environment for industries in the state.
