NG INDIA'S GROWTH STORY

T.S. SINGHDEO, Deputy Chief Minister, Chhattisgarh

"When you're in government, you'll face anti-incumbency. There can't be a formula on how many MLAs can be denied tickets. The only formula is giving tickets to those who can win"

"I was never a group person and I never took a single step to form a group. If the party is a family, then let the higher-ups decide on the issue of leadership"

"There are always these quotas spoken of before polls. We want to give tickets to the best candidates.... The Congress will give more tickets to women this time for sure, definitely more than 20"

"To say there was nothing would be a falsehood. There were tensions [with CM Bhupesh Baghel], there were issues, but we were mature enough to handle them"

EL WORKING?

"If a farmer, especially a woman, wants to work with farmer producer organisations (FPOs), a lot of documentation is involved, which needs policy changes"

AKASH BADAVE,
CEO, Bhoomgaadi, Dantewada

"We learnt about Gaudhan Nyay Yojana in 2020 and started buying cow dung for vermicompost. Later, a master trainer from Jaipur trained us in how to make paint from cow dung"

DHANESHWARI RATRE,
Convener, Govardhan All Women's SHG

"Bastar used to have rubber plants earlier, but farmers gradually chose paddy over it. We are in talks with universities in Kerala to introduce rubber plants again"

GIRISH CHANDEL,
V-C, Indira Gandhi Krishi Vishwavidyalaya, Raipur
