**Course fee = Tuition fee + other fees; as given by the college*

ALUMNISPEAK

"I grew up in a village. Studying at an institute with students from across India and pursuing the BCA course that focuses on a multidisciplinary approach, offering subjects like psychology too, broadened my perspective"

ALFRED O.V.

Assistant Collector (under training) in Kerala; Batch of 2017

So what are the key strengths of the BCA course at Christ? "Curriculum, faculty and industry connect," is how Dr Immanuel sums it up. The faculty members regularly meet to discuss the curriculum to bring it on a par with the latest industry trends. "In fact, we have restructured the entire curriculum for the upcoming year," he says, adding that the focus is on reinforcing learning outcomes while also including more practical work. The deemed to be university is now setting up a research and development facility to cater to emerging technologies, such as augmented reality (AR)/ virtual reality (VR) and drones. "Our dream is for students to undertake research and projects in these areas," says the HoD, adding that even teachers are encouraged to do online courses to keep abreast of technology and develop their skills. "The industry connect is another area, wherein we bring in experts and try to narrow the gap between the student, industry and institution," he says.

THE TECH LEAP

- **The department is venturing into yet untouched areas like augmented reality and drones, says the HoD, Dr Ashok Immanuel V.**
- **Hosted its first international conference on computational sciences and sustainable technologies this year**
- **Even the activity club, Labyrinth, is focusing on new technologies—from Python to the Internet of Things**

In fact, the experience of the pandemic-induced remote learning prompted the institute to launch a mission for students to pick up both essential and advanced digital skills. But the transition to fully offline classes in 2022-23 also came with its own set of challenges, says Vice-
