

HARDIK CHHABRA

GURUSPEAK

"We have an enabling atmosphere where students can pursue their interests. There is a good rigour in academics, research and innovation, as there is enthusiasm and excitement"

RANGAN BANERJEE
Director, IIT Delhi

Among the top 50 institutions in the world for engineering and technology education as per the QS World University Rankings by Subject 2023, the Indian Institute of Technology (IIT) Delhi has kept its game razor-sharp by finding the perfect sync between industry-oriented innovation and pure research fundamentals. Set up in 1961, IIT Delhi has always believed in inculcating a strong entrepreneurial mindset in its students and training them to think out of the box. This is what has enabled the institute to become an education brand known around the world, incubating the best minds and putting them out in time to harvest all technology-led revolutions of recent decades.

It offers undergraduate, postgraduate, research and continuing education professional programmes across subjects—its Engineering courses are the most iconic, of course, but Physical Sciences is right up there, and even the Management, Humanities and Social Sciences streams are marked by a high calibre. Over 48,000 graduates have come out of the institute since its inception and the number of students who have graduated with a BTech degree is over 15,738. Five of its programmes—Electrical and Electronic Engineer-

TOP 10 GOVERNMENT ENGINEERING COLLEGES 2023
