this year with a BE degree in Electronics and Instrumentation, and has landed job offers from the HyScale Lab of NTU, Singapore, and Polygon.

A big focus of BITS is on the continuous revision of the curriculum keeping in view industry demands. "Our curriculum is continuously being innovated and refreshed to reflect the latest developments in technology and trends within the industry. Pure academics are supplemented by pervasive industry engagement and every student is exposed to practical applications of classroom knowledge under a structured semester-long engagement programme," says Prof. V. Ramgopal Rao, vice-chancellor, BITS Pilani.

At the institute, the main focus is to inculcate an entrepreneurial mindset in its students with a flexible curriculum. "Building entrepreneurship, incubation that encourages start-ups is core to BITS Pilani curriculum," adds Prof. Rao. The technology business incubator set up in 2004 is instrumental in defining and supporting innovation, commercialisation and entrepreneurship ecosystem. The market cap of the top 10 BITSian ventures is $65 billion. The institute has produced 7,500 founders of various ventures and 6,300 CEOs. Among its students, 3,400 are in academia and 33 per cent are settled abroad. BITS Pilani has incubated 80 start-ups in the past three years and 170 since its inception.

To make further inroads in terms of collaborative par-
