## TOP 3 GAINERS

**Colleges that have made the biggest leap since last year**

| COLLEGE | CITY | RANK IN 2023 | RANK IN 2022 |
|---|---|---|---|
| SMT. MANORAMABAI MUNDLE COLLEGE OF ARCHITECTURE | Nagpur | 23 | 27 |
| CHITKARA SCHOOL OF PLANNING AND ARCHITECTURE | Patiala | 22 | 25 |
| DEPARTMENT OF ARCHITECTURE, THIAGARAJAR COLLEGE OF ENGINEERING | Madurai | 31 | 34 |

## NEW ENTRANTS AMONG TOP 25

**Colleges that feature among the top 25 for the first time**

| RANK | COLLEGE | CITY |
|---|---|---|
| 9 | DEPARTMENT OF ARCHITECTURE, ZAKIR HUSAIN COLLEGE OF ENGINEERING AND TECHNOLOGY, ALIGARH MUSLIM UNIVERSITY | Aligarh |
| 15 | AMITY SCHOOL OF ARCHITECTURE AND PLANNING | Noida |
| 23 | SMT. MANORAMABAI MUNDLE COLLEGE OF ARCHITECTURE | Nagpur |

## STUDENTSPEAK

**"Studying here has been immensely rewarding... the department seamlessly combines training and research, allowing exploration of diverse disciplines"**

**SUYASH RAHARIYA**

*BArch, 4th year*

ous urban and built environment challenges, ranging from climate change to energy conservation, sustainability to heritage values, social inclusion to futuristic built forms.

It also has some of the best facilities to pursue their projects. The virtual collaborative tools have also ensured creative ways of delivering outcomes. The facilities on campus include a climatology lab, an art lab and a computer lab with state-of-the-art equipment and software. There are also abundant workshop spaces.

The latest addition to the climatology cause is the Net Zero Emissions lab, set up with assistance from an Indo-UK programme. Six other new labs are also now onstream, including the virtual reality lab, one for SPARSH (spatial planning research), and also separate labs for urban dynamics, civic design, industrial design, inclusive design (LID) and infrastructure planning.

The faculty has undertaken a wide range of projects to spearhead their research and professional endeavours in this area. It now has international tie-ups for several Net Zero labs—the concept of zero net energy consumption buildings, where the total energy used annually by a building is equal to renewable energy produced on site. Such interactions form the foundation for pedagogy in the department.

IIT Roorkee follows a rigorous selection process to ensure that only the most talented and deserving students get into its architecture and planning programmes. Prof. Gaurav Raheja, head of the department of architecture and planning, says, "We provide a very scholastic, enriching and interpersonal perspective to not just the education in architecture and planning but a lot of cutting-edge, state-of-the-art knowledge frameworks through which they will be able to take on the real-life challenges out in the world. Besides this, we have a fairly good industry interface. Helpful alumni, a wonderful set of students and faculty, everything comes together to make the campus environment very friendly here." ■
