My Work is For A King

The first medical college for women in Asia established in 1894

Dr. William Bhatti,
Director, CMCL.

"The pandemic has taught us that only when we take chances, our lives improve. God has given us all the pieces required to make a better world, it is our obligation to put these pieces together by combining justice, equity and excellence. CMCL has been doing this for the last 126 years, and will continue to uphold the words of our founder". "My Work is for a King".

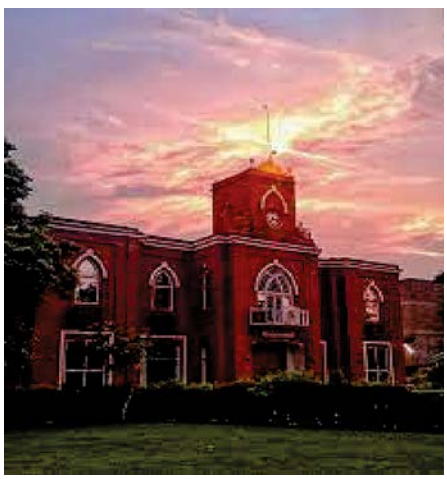

Dr. Edith Mary Brown
Founder & Principal

- Over 80% of graduates serve needy communities through 145 rural hospitals across the country.
- Alumni from every state of India.
- Graduate selected for higher studies in top foreign universities e.g. Johns Hopkins, Mayo Clinic, Cleveland Clinic,
- A balanced academic co-curricular activities with a thriving student nurture programme and 24 x 7 Student Support Center.

Dr. Jeyaraj D Pandian,
Principal,CMCL.

"The vision of CMC is to impart high quality medical education and research, and offer holistic health care services to the nation, primarily to unreached communities. Majority of our medical graduates after the completion of the training go and serve in rural Christian mission hospitals. CMC Ludhiana has pioneered the area of research and has started many new medical and surgical facilities in north India."

- Comprehensive Cancer Care
- The first use of IV thrombolytic therapy for acute stroke in India.
- The only DSA lab in the region doing Manual
- Aspiration Thrombectomy for Stroke Patients
- Only lab in India for neuro-autonomic functioning.
- First florescent In-Situ Hybridization (FISH) Microscopy in the region.
- First Bone Marrow Transplant center in Punjab, over 200 stem cell transplants.
- One of 4 FAIMER regional centres in India an among 10 in the world.
