

QUALITY EDUCATOIN AND HEALTH CARE ON A PLATTER

Telangana, a state known for its progressive approach to governance, has implemented several transformative schemes in the fields of education and healthcare. With a vision to provide quality education and accessible healthcare services to all its citizens, the government of Telangana has undertaken innovative initiatives that have positively impacted the lives of people across the state.

In keeping with the motto that 'expenditure on education is an investment for the future', the State Government launched Mana Ooru – Mana Badi / Mana Basti – Mana Badi programme for comprehensive development and strengthening of infrastructure facilities in 26,065 schools in 3 phases, spread over a 3-year span, with a total budget outlay of Rs 7,289.54 crores. English medium of instruction was introduced in all government schools from the academic year 2022-23.

- 1002 TS Residential Schools have been set up with international standards for poor students and 5 lakh students are enrolled which has helped public education dramatically
- Telangana comes first in minority girls' education in the country.
- Mid-day meals and lunches at hostels are supported with free high quality fi ne rice by the government.
- Overseas scholarships worth Rs 20 lakh for STs, BCs, SCs, EBC, Brahmins and minorities have shown very good results.

KCR KIT is designed to aid pregnant women with assistance of Rs 12,000 (Rs 13,000 in case of a girl child) in four phases. So far about 13.91 lakh women have benefitted from the KCR KIT, which comprises 14 baby-care utility items, and is given at the time of delivery. The impact of the scheme is so large, that ANC checkup has increased to 99%, first time registrations have increased from 17% to 82%.

The state Government introduced another flagship programme called KCR Nutrition KIT on December 21, 2022 in nine districts, where incidences of anemia were the highest among pregnant women. Now, the scheme has been extended to all the 33 districts and it is expected that 6.84 lakh pregnant women will benefit every year. KCR Nutrition KIT is the best option for malnourished pregnant women, according to health and medical professionals. The Telangana Government has decided to establish one medical college in each district in order to bring medical education to remote areas. From the five Government Medical colleges that existed when the State was formed, has now shot up to 26 medical colleges.

The Government is constructing four Super Specialty Hospitals named as 'Telangana Institute of Medical sciences' in the four corners of Hyderabad city- Gachibowli, LB Nagar, Alwal and Sanatnagar. The government has sanctioned a state-of-the-art Health City and a 2000 bedded super–specialty hospital for Warangal.

Basthi Dawakhanas are located in the slums to meet healthcare needs of the urban population with the focus on urban poor, by making available essential primary healthcare services. From the present 334 Basthi Dawakhanas, the aim is to establish one such clinic for every 5,000 - 10,000 population.

Striving for 'avoidable blindness-free Telangana', the Government has embarked on eye screening of the entire population of the state under "Kanti Velugu", which was launched on August 15, 2018. Around 1.54 crore people have been screened. Kanti Velagu II, eye screening started in all districts from 18th January 2023. So far 62 lakh spectacles distributed free of cost.
